X. PART 9 – SIGNATURE AUTHENTICATION

Signature Guarantee (if required):

If you are adding bank information to your account and there is no common ownership between the account registration and the bank registration, a registered bank account owner must have his/her signature guaranteed by an eligible guarantor institution. An eligible guarantor is a domestic bank or trust company, securities broker/dealer, clearing agency or savings association that participates in a medallion program recognized by the Securities Transfer Agents Association. The three recognized medallion programs are the Securities Transfer Agents Medallion Program (known as STAMP), Stock Exchanges Medallion Program (SEMP), and the Medallion Signature Program (MSP). A notarization from a notary public is also an acceptable substitute for a signature guarantee.

The SVP Stamp is intended to provide a signature guarantee for those transactions considered non-financial in nature. The SVP Stamp on a document assures the signature on the document is genuine, the signer was known by or satisfactorily identified by the guarantor and the signer had the authority to sign the document. In the event the bank or financial institution does not offer the SVP Stamp, a Medallion Guarantee Stamp will be accepted.

The SVP Stamp and the Medallion Guarantee Stamp may be obtained from an eligible guarantor of the Medallion Guarantee Program, which includes commercial banks, trust companies, savings associations and credit unions, as defined by the Federal Deposit Insurance Act. Also included are member firms of a domestic stock exchange. Non barcoded guarantees are not acceptable, but you may obtain stamps from a Notary Public. All bar-coded guarantees must be legible. For those signing in a capacity other than the account owner, a capacity must be indicated beside or beneath the signature. Prior to signing, contact the guarantor to determine what documentation needs to be provided.
