(Proceeds \$4,920,256)	(7,645,011)
Total Securities Sold Short - (0.8)%	
(Proceeds \$4,920,256)	(7,645,011)
Other Assets & Liabilities, Net - (14.4)%	(134,664,244)
Net Assets - 100.0%	935,968,130

- (a) All or part of this security is pledged as collateral for short sales. The fair value of the securities pledged as collateral was \$40,352,444.
- (b) Non-income producing security.
- (c) Securities with a total aggregate value of \$761,372,127, or 81.3% of net assets, were classified as Level 3 within the three-tier fair value hierarchy. Please see Notes to Investment Portfolio for an explanation of this hierarchy, as well as a list of unobservable inputs used in the valuation of these instruments.
- (d) Represents fair value as determined by the Investment Adviser pursuant to the policies and procedures approved by the Board of Trustees (the "Board"). The Board has designated the Investment Adviser as "valuation designee" for the Fund pursuant to Rule 2a-5 of the Investment Company Act of 1940, as amended. The Investment Adviser considers fair valued securities to be securities for which market quotations are not readily available and these securities may be valued using a combination of observable and unobservable inputs. Securities with a total aggregate value of \$761,372,127, or 81.3% of net assets, were fair valued under the Fund's valuation procedures as of March 31, 2023. Please see Notes to Investment Portfolio.
- (e) Restricted Securities. These securities are not registered and may not be sold to the public. There are legal and/or contractual restrictions on resale. The Fund does not have the right to demand that such securities be registered. The values of these securities are determined by valuations provided by pricing services, brokers, dealers, market makers, or in good faith under the policies and procedures established by the Board. Additional Information regarding such securities follows:

Restricted Security	Security Type	Acquisition Date	Cost of Security		Percent of Net Assets
TerreStar	Common				
Corporation	Stock	3/16/2018	\$3,093,276	\$ 9,776,651	1.0%

- (f) Affiliated issuer. Assets with a total aggregate fair value of \$757,565,390, or 80.9% of net assets, were affiliated with the Fund as of March 31, 2023.
- (g) Securities (or a portion of securities) on loan. As of March 31, 2023, the fair value of securities loaned was \$8,025,338. The loaned securities were secured with cash and/or securities collateral of \$8,199,268. Collateral is calculated based on prior day's prices.

- (h) Senior loans (also called bank loans, leveraged loans, or floating rate loans) in which the Fund invests generally pay interest at rates which are periodically determined by reference to a base lending rate plus a spread (unless otherwise identified, all senior loans carry a variable rate of interest). These base lending rates are generally (i) the Prime Rate offered by one or more major United States banks, (ii) the lending rate offered by one or more European banks such as the London Interbank Offered Rate ("LIBOR") or (iii) the Certificate of Deposit rate. As of March 31, 2023, the LIBOR USD 3 Month rate was 5.19%. Senior loans, while exempt from registration under the Securities Act of 1933, as amended (the "1933 Act"), contain certain restrictions on resale and cannot be sold publicly. Senior secured floating rate loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity maybe substantially less than the stated maturity shown.
- (i) Variable or floating rate security. The rate shown is the effective interest rate as of period end. The rates on certain securities are not based on published reference rates and spreads and are either determined by the issuer or agent based on current market conditions; by using a formula based on the rates of underlying loans; or by adjusting periodically based on prevailing interest rates.
- (j) Securities exempt from registration under Rule 144A of the 1933 Act. These securities may only be resold in transactions exempt from registration to qualified institutional buyers. The Board has determined these investments to be liquid. At March 31, 2023, these securities amounted to \$100,780,406 or 10.8% of net assets.
- (k) No interest rate available.
- (1) Interest only security ("IO"). These types of securities represent the right to receive the monthly interest payments on an underlying pool of mortgages. Payments of principal on the pool reduce the value of the "interest only" holding.
- (m) The issuer is, or is in danger of being, in default of its payment obligation.
- (n) There is currently no rate available.
- (o) Perpetual security with no stated maturity date.
- (p) Variable or floating rate security. The base lending rates are generally the lending rate offered by one or more European banks such as the LIBOR. The interest rate shown reflects the rate in effect March 31, 2023.
- (q) Step Coupon Security. Coupon rate will either increase (step-up bond) or decrease (step-down bond) at regular intervals until maturity. Interest rate shown reflects the rate currently in effect.
- (r) Represents value held in escrow pending future events. No interest is being accrued.
- (s) Tri-Party Repurchase Agreement.
- (t) This security was purchased with cash collateral held from securities on loan. The total value of such securities as of March 31, 2023 was \$8,113,653.
- (u) As of March 31, 2023, \$7,572,264 in cash was segregated or on deposit with the brokers to cover investments sold short and is included in "Other Assets & Liabilities, Net".

## As of March 31, 2023 Highland Income Fund

Reverse Repurchase Agreement outstanding as of March 31, 2023 were as follows:

Mizuho Securities	FREMF Mortgage Trust,					
	Series 2021- KF103,					
	Class CS, 11/02/2022	6.8	3/23/2023	\$(19,259,000)	\$(19,259,000)	\$(19,259,000)
Total Reverse Repurchase Agree	ment				\$(19,259,000)	\$(19,259,000)

## NOTES TO INVESTMENT PORTFOLIO (unaudited)

As of March 31, 2023 Highland Income Fund

## Organization

Highland Income Fund (the "Fund") is organized as an unincorporated business trust under the laws of The Commonwealth of Massachusetts. The Fund is registered with the U.S. Securities and Exchange Commission (the "SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"), as a non-diversified, closed-end management investment company. On September 25, 2017, the Fund acquired the assets of Highland Floating Rate Opportunities Fund (the "Predecessor Fund"), a series of Highland Funds I, a Delaware statutory trust. The Fund is the successor to the accounting and performance information of the Predecessor Fund.

#### Valuation of Investments

Pursuant to Rule 2a-5 under the 1940 Act, the Fund's Board of Trustees (the "Board") has designated NexPoint Asset Management, L.P. (formerly Highland Capital Management Fund Advisors, L.P.) ("NexPoint" or the "Investment Advisor") as the Fund's valuation designee to perform the fair valuation determination for securities and other assets held by the Fund. NexPoint acting through its "Valuation Committee," is responsible for determining the fair value of investments for which market quotations are not readily available. The Valuation Committee is comprised of officers of NexPoint and certain of NexPoint's affiliated companies and determines fair value and oversees the calculation of the NAV. The Valuation Committee is subject to Board oversight and certain reporting and other requirements intended to provide the Board the information it needs to oversee NexPoint's fair value determinations.

The Fund's investments are recorded at fair value. In computing the Fund's net assets attributable to shares, securities with readily available market quotations on the NYSE, National Association of Securities Dealers Automated Quotation ("NASDAQ") or other nationally recognized exchange, use the closing quotations on the respective exchange for valuation of those securities. Securities for which there are no readily available market quotations will be valued pursuant to policies adopted by NexPoint and approved by the Board. Typically, such securities will be valued at the mean between the most recently quoted bid and ask prices provided by the principal market makers. If there is more than one such principal market maker, the value shall be the average of such means. Securities without a sale price or quotations from principal market makers on the valuation day may be priced by an independent pricing service. Generally, the Fund's loan and bond positions are not traded on exchanges and consequently are valued based on a mean of the bid and ask price from the third-party pricing services or broker-dealer sources that the Investment Adviser has determined to have the capability to provide appropriate pricing services.

Securities for which market quotations are not readily available, or for which the Fund has determined that the price received from a pricing service or broker-dealer is "stale" or otherwise does not represent fair value (such as when events materially affecting the value of securities occur between the time when market price is determined and calculation of the Fund's net asset value ("NAV")), will be valued by the Fund at fair value, as determined by the Valuation Committee in good faith in accordance with policies and procedures established by NexPoint and approved by the Board, taking into account factors reasonably determined to be relevant, including, but not limited to: (i) the fundamental analytical data relating to the investment; (ii) the nature and duration of restrictions on disposition of the securities; and (iii) an evaluation of the forces that influence the market in which these securities are purchased and sold. In these cases, the Fund's NAV will reflect the affected portfolio securities' fair value as determined in the judgment of the Valuation Committee instead of being determined by the market. Using a fair value pricing methodology to value securities may result in a value that is different from a security's most recent sale price and from the prices used by other investment companies to calculate their NAVs. Determination of fair value is uncertain because it involves subjective judgments and estimates.

There can be no assurance that the Fund's valuation of a security will not differ from the amount that it realizes upon the sale of such security. Those differences could have a material impact to the Fund.

#### Fair Value Measurements

The Fund has performed an analysis of all existing investments and derivative instruments to determine the significance and character of inputs to their fair value determination. The levels of fair value inputs used to measure the Fund's investments are characterized into a fair value hierarchy. Where inputs for an asset or liability fall into more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment's valuation. The three levels of the fair value hierarchy are described below:

As of March 31, 2023 Highland Income Fund

- Level 1 Quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement;
- Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active, but are valued based on executed trades; broker quotations that constitute an executable price; and alternative pricing sources supported by observable inputs are classified within Level 2. Level 2 inputs are either directly or indirectly observable for the asset in connection with market data at the measurement date; and
- Level 3 Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. In certain cases, investments classified within Level 3 may include securities for which the Fund has obtained indicative quotes from broker-dealers that do not necessarily represent prices the broker may be willing to trade on, as such quotes can be subject to material management judgment. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.

The Investment Adviser has established policies and procedures, as described above and approved by the Board, to ensure that valuation methodologies for investments and financial instruments that are categorized within all levels of the fair value hierarchy are fair and consistent. A Valuation Committee has been established to provide oversight of the valuation policies, processes and procedures, and is comprised of personnel from the Investment Adviser and its affiliates. The Valuation Committee meets monthly to review the proposed valuations for investments and financial instruments and is responsible for evaluating the overall fairness and consistent application of established policies.

The fair value of the Fund's senior loans and bonds are generally based on quotes received from brokers or independent pricing services. Loans, bonds and asset-backed securities with quotes that are based on actual trades with a sufficient level of activity on or near the measurement date are classified as Level 2 assets. Loans and bonds that are priced using quotes derived from implied values, indicative bids, or a limited number of actual trades are classified as Level 3 assets because the inputs used by the brokers and pricing services to derive the values are not readily observable.

The fair value of the Fund's common stocks, registered investment companies, rights and warrants that are not actively traded on national exchanges are generally priced using quotes derived from implied values, indicative bids, or a limited amount of actual trades and are classified as Level 3 assets because the inputs used by the brokers and pricing services to derive the values are not readily observable. Exchange-traded options are valued based on the last trade price on the primary exchange on which they trade. If an option does not trade, the mid-price, which is the mean of the bid and ask price, is utilized to value the option.

At the end of each calendar quarter, the Investment Adviser evaluates the Level 2 and 3 assets and liabilities for changes in liquidity, including but not limited to: whether a broker is willing to execute at the quoted price, the depth and consistency of prices from third party services, and the existence of contemporaneous, observable trades in the market. Additionally, the Investment Adviser evaluates the Level 1 and 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

## NOTES TO INVESTMENT PORTFOLIO (unaudited) (concluded)

As of March 31, 2023 Highland Income Fund

## **Affiliated Issuers**

Under Section 2 (a)(3) of the Investment Company Act of 1940, as amended, a portfolio company is defined as "affiliated" if a fund owns five percent or more of its outstanding voting securities or if the portfolio company is under common control. The table below shows affiliated issuers of the Fund for the period ended March 31, 2023:

Issuer	Shares at December 31, 2022	Beginning Value as of December 31, 2022	Purchases at Cost	Proceeds from Sales	Distribution to Return of Capital	Net Realized Gain/(Loss) on Sales \$	Change in Unrealized Appreciation/ (Depreciation)	Ending Value as of March 31, 2023	Shares at March 31, 2023	Affiliated Income S
